

# STRATEGIC FOCUS 2021 – 2025

## OUR MISSION

Worldwide, we are creating opportunities enabling children and young people to shape their futures with confidence.

### IT IS OUR MISSION:

- To realise quality education for marginalized people
- To equip teachers with skills to make impact and built resilience and confidence with learners to absorb knowledge
- To mobilize awareness (citizenship) and support in society, especially support by the educational sector.

## OUR VISION

### AS EXPERTS FOCUSED ON EDUCATION WE BELIEVE THAT:

- Education is the key for development; building a better future starts with education as a foundation
- Education is a fundamental human right and it is an indispensable bridge to all other human rights

In our approach to enabling children to learn Edukans pursues future-proof quality education through a collective effort focusing on a

safe learning environment, dedicated school management, quality trained teachers and home-support by parents and community.

We believe that everyone is entitled to good education as it gives opportunities to bring out the best in themselves and thus contribute to a more humane society.

With education, people acquire and share insight and skills to permanently develop and contribute to a better world.

## OUR PROMISES

- We increase **learning achievements:** Pupils round off their school career through quality education, with impactful learning and life skills at the centre.
- We provide for **job fit skills:** Edukans bridges the gap between education and the marketplace by offering disadvantaged youth the skills to pursue a job that allows them financial independence.
