

A photograph of three young children, two girls and one boy, smiling and waving their hands. They are outdoors, with trees and a building in the background. The child on the left is a girl with curly hair wearing a patterned dress. The child in the middle is a boy wearing a yellow t-shirt. The child on the right is a girl with curly hair wearing a yellow t-shirt.

## 2022 in a nutshell

In 2022 we worked on **42 projects in 10 countries** across the world. We have offices in Kenya, Ethiopia, Malawi, Uganda and the Netherlands. We have reached **456,586 children and young people** of which **56,693 are in emergency situations**. They received improved quality education. We have reached **5,033 teachers**. They were equipped with the competencies to improve the quality of education. Our comprehensive education approach has given children and young people who need it most access to relevant, inclusive and quality education.

We believe education is the most powerful engine for progress. It can enable young people to flourish as they discover and develop their talents, resulting in a healthier, happier and more successful life. It has the power to change societies from within and to support sustainable, inclusive and safe communities. Edukans is committed to unleashing the power of education.

Let's unleash the power of education together.

## Basic Education

378,883

children received improved quality education

3,095

teachers developed their pedagogical skills

1,173

Star Schools improved the quality of education for learners and teachers

"I am proud of all the children who have increased their literacy level last year and developed their social and emotional skills. And I am proud of all the young people who have developed their skills and social competences or started a new job. Thanks to all the teachers for making the difference in the life of so many children. We ensured that almost 500,000 children and young people could embrace their right to learn. Thanks to the generous donations of our partners and donors we have made high quality education possible for them and strengthened education systems."

Warm regards,  
Petra van Haren, CEO Edukans

## Skills for Work and Life

16,450

young people developed their skills in preparation for work and life
