

2023 *in a nutshell*

In 2023 we worked on **31 projects** in **8 countries**, mainly in East Africa. We have offices in Kenya, Ethiopia, Malawi, Uganda and the Netherlands. We have reached **701,787 children and young people**, of which **56,302 are in emergency situations**. They received improved quality education. We have reached **19,504 teachers**. They were equipped with the competencies to improve the quality of education. Our education approach has given children and young people who need it most access to relevant, inclusive and quality education.

We believe education is the most powerful engine for progress. It can enable young people to flourish as they discover and develop their talents, resulting in a healthier, happier and more successful life. It has the power to change societies from within and to support sustainable, inclusive and safe communities. Edukans is committed to unleashing the power of education.

Let's unleash
the power of education
together.

Basic Education

625,164

children received
improved quality
education

17,077

teachers developed
their pedagogical skills

2,455

Star Schools improved
the quality of education
for learners and teachers

"I am incredibly proud of all the children who overcame challenges to go to school. And I am proud of all the young people who developed skills and can now take care of themselves with their own income. Many thanks to all the teachers who made a difference in the lives of so many children and young people. Our work ensured that more than 700,000 children and young people had access to quality education. Thanks to the generous donations from our partners and donors, we made this possible for them and we can continue to strengthen education systems."

Warm regards,
Petra van Haren, CEO Edukans

Skills for Work and Life

13,973

young people developed
their skills in preparation
for work and life

374

teachers were equipped
with the competencies to
teach Life Skills

Education in Emergencies

56,302

children and young people
received quality education
in emergency situations

1,740

teachers were trained in
child-centred pedagogy
and learning and
behavioural difficulties

Exchange

Going Global 2023
brought together
3,285 pupils from the
Netherlands and Uganda

Edukans Kenya hosted
38 World Teachers
from the Netherlands
during a useful
cross-cultural experience

Heart-warming support from our donors
